NOW THEN...
PATAN (SHUT)

WHAT BROUGHT THIS ON?

I JUST TALKED TO YUKI-SENPAI, AND NOW I UNDERSTAND.

IT'S NOTHING ALL THAT IMPORTANT.

YOU UNDERSTAND?

...TRYING HER BEST.

SHE'S ALSO...

...YES, SHE IS.

AND NOW I THINK THAT SHE'S...

...JUST FINE AS SHE IS.

I THINK MOTI-VATING PEOPLE IS ITS OWN SORT OF TALENT.

THE SOOTH-ING TYPE?

KIND OF LIKE A DOGGY ...

I WOULDN'T GO THAT FAR THOUGH ...

A DOGGY ...

.....

むっ
MU (HMPH)

AHEM!

...YUKI-SENPAI'S A BIT LIKE A DOG, ISN'T SHE?

HEH.

A DOGGY.

MUSUJU (GRIMACE)

むす

A DOGGY.

THAT'S CUTE, ISN'T IT?

YUURI-SENPAI, DO—

YOU CAN CALL ME RII-SAN.

WELL... I LIKE THEM...

RII-SAN, DO YOU HATE...

...DOGS?

...BUT IT WOULD PROBABLY BE BETTER NOT TO TALK ABOUT THEM IN FRONT OF YUKI.

DID...

... SOME-THING HAPPEN ?

BIRDS SEEM TO BE ALL RIGHT, BUT IT LOOKS LIKE MAMMALS ARE ALL IN DANGER.

DOGS CAN BE INFECTED TOO.

IT WAS A STRAY DOG.

I WONDER WHERE HE...

...CAME FROM.

AND A WHILE BACK, YUKI BROUGHT ONE HERE WITH HER...

OH...

HEY.

LET'S KEEP HIM!

HFF!

HFF!

WE CAN KEEP HIM, RIGHT?

HFF! HFF!

GATA (CLATTER)

!!

HEY!

WHERE DID YOU FIND THAT DOG!?

BIKU (FLINCH)

HMMMPH.

GYU (SQUEEZE)

LET ME SEE HIM.

TAKEYA-SAN.

ひよいっ

HYOI (LIFT)

YOU'RE NOT GONNA HURT HIM, ARE YOU, MEGU-NEE?

OF COURSE NOT.

HMM...

I SEE.

.....THEN THAT MEANS...

HE HAS MARKS FROM A COLLAR.

... BELONGS TO SOMEONE.

HE...

PLEASE?

JUST UNTIL WE FIND HIS OWNER THEN...

AWW.

GAKKURI (SLUMP)

HE HAS AN OWNER.

KUUUN (WHINE)

...WELL.

I SUPPOSE.

ALL RIGHT!

THEN I'LL JUST KEEP HIM WITH ME.

UGH!

OH YEAH...

HE BELONGS TO SOMEONE, SO YOU CAN'T JUST GIVE HIM A NAME.

NO.

...YOUR NAME IS...

THEN ...

HFF!

HFF!

THERE ARE PROCEDURES I HAVE TO FOLLOW.

NOOO FAIIIR!

OKAY. JUST BE GENTLE.

CAN I PET HIM?

GARI

I GUESS IT WAS UNAVOID-ABLE...

GISHI

OH...

YES. HIS OWNER CAME BY LAST NIGHT.

HUH?

ALREADY?

...WHAT THE?

THAT'S THE NAME I GAVE HIM!

BE SAFE, TAROU-MARU!

YEAH!

...THAT'S A NICE NAME.

HE'S GONE, SO I CAN SAY IT NOW.

RIGHT?

AND THEN...

...WHAT HAPPENED TO THE DOG?

AND HAD THAT BEEN IT, IT WOULD HAVE BEEN JUST FINE.

MEGU-NEE SAID SHE TOOK IT FAR AWAY AND LEFT IT THERE.

I SUPPOSE THAT'S ALL SHE COULD DO.

THERE'S ...

...MORE?

KARI (SCRATCH)

KARI

SHUSH.

NOPE.

HEY.

DID YOU HEAR SOME-THING?

GATA (CLATTER)

THERE.

KARI

I'LL GO TAKE A LOOK.

WHAT COULD IT BE?

I WONDER.

GVARI (SCRATCH)

GARI

GARI

SEE?

GARI (SCRATCH)

GARI

GARA (SLIDE)

BP

IT CAME BACK.

JUST MEMORIES.

NAH.

...IT HAD FEELINGS.

SO...

OR I GUESS NOT QUITE. EITHER WAY, IT CAME BACK.

IT WAS HOMING INSTINCT ...

...SO IT CAME BACK TO THE PLACE THAT WAS ON ITS MIND.

JUST SOME MEMORIES WERE LEFT ...

THE PLACE ON THEIR MINDS...

...HUH.

YOU KNOW THAT?

MORE OR LESS.

THAT'S PROBABLY WHY THERE ARE SO MANY STUDENTS LEFT HERE AT THE SCHOOL TOO.

...HAD HAND-CUFFS ON YOU.

WE JUST...

HONESTLY, WE WERE KEEPING AN EYE ON YOU. BOTH YOU AND YUKI WERE KINDA IFFY.

...WEREN'T YOU WORRIED ABOUT ME WHEN YOU BROUGHT ME HERE?

NOW THAT YOU MENTION IT...

IF WE...

...

...HAD ENDED UP LIKE THAT, WOULD YOU HAVE DEALT WITH US?

I'M NOT SURE.

BUT...

...NOT EVEN MEGU-NEE WOULD HAVE KNOWN WHAT TO DO. NOT UNTIL IT ACTUALLY HAPPENED.

YES.

YOU KNOW...

WHEN I'M WORRIED, I THINK ABOUT WHAT MEGU-NEE WOULD DO.

I WISH ...

...I COULD HAVE MET THIS MEGU-NEE.

YES.

I SEE.

YOU'RE RIGHT ...

I'M SURE SHE WOULD HAVE LIKED THAT...

About this school's protective facilities

1. Basement

The first and second basements serve as the emergency shelter for this school. In the event of an emergency, use this area as a base.

2. Supplies

Designed to support up to fifteen people Stores contain food to last one month. Between power generation from the solar cells and the water purification system, it is possible to have unlimited use of water and power

3. Emergency Supplies

Stores include bandages, antipyretics, various antibiotics, and an emergency infection treatment set. Each set contains enough medicine to treat three people.

4. Entrance

Entry is possible through the shutter in the back of the first floor storeroom

The key to the electronic lock is the master code in the possession of the person in charge. It is also possible to enter the phone number of the school's representative (eight digits without the area code) in reverse order It can be reset from the inside, however, the master code will take precedence over all other settings

In case of a power outage, the shutter can be unlocked via a panel to the side and raised or lowered by hand. (The key is in the possession of the person in charge.)

Varieties and Details of Infection

An important part of dealing with weapons is doing the required amount of damage to the required area Biological weapons are no exception to this rule.

When used on a wide scale on the battlefield, the main aim is to lock down manpower through use of the outbreak In such cases, increasing the number of individuals requiring care is to be desired. In other words, the vector must be designed to have a high infection rate and low mortality rate.

Conversely, when used to destroy on a small scale, a high mortality rate with a low infection rate to avoid the proliferation of victims is to be desired.

Paying close attention to the differences in these varieties of infection should allow for calm, effective action in the event of an emergency

2, Exceptions

The more infectious strain has a low mortality rate, and the less lethal strain has a high infection rate

These are the desired specifications of the completed products, but should strains still in development escape, this will not necessarily be the case Also, should the product be allowed to multiply on a large scale, mutation may occur and cause the product to take on different qualities from its original state.

In light of this possibility, care must be taken when dealing with the product.

3, Categories

The following are the current research categories as of [redacted] These are broad classifications and may change with time

Category α:

Wide scale infectious agent Based off the [redacted] bacterium, this strain is particularly infectious and has unusually strong routes of infection. General symptoms include fever, sweating, and nausea.

The incubation period is 3-6 days. Routes of infection include contact, droplet, and blood borne infections.

The mortality rate is low, but without proper medical treatment, after effects such as death due to emaciation may occur

Given the length of the incubation period, a quarantine period of ten days should be imposed.

After taking precautions to avoid infection (preferably by wearing a hazmat suit), the first-aid kit marked α should be used.

Category β:

Lethal infectious agent Based off the [redacted] virus, this strain is particularly resistant to existing vaccines General symptoms include vomiting, diarrhea, vomiting blood, and bleeding. The infection is blood borne

The incubation period is approximately 2 hours. The mortality rate is more or less 100%.

Individuals exposed to Category β strains should be avoided. The virus in the blood will expire approximately seven hours after death.

Category Ω:

[redacted] world, on the domain level [redacted] should not be applied [redacted] cardiac arrest. [redacted]

[redacted] should use [redacted] marked Ω [redacted]

1. Introduction

This document should be opened upon the declaration of an A-1 warning or when such conditions are suspected. (In other cases, see the stipulations included with the non-disclosure agreement and contact the [redacted] auditing department immediately.)

This document covers methods of response in such an emergency situation.

In a unique situation such as this, decisions and actions must be made to fit the particular situation

The many guaranteed freedoms and safeties of typical everyday life represent choices that are difficult to come by in a situation such as this, so keep in mind that typical common sense may lead to harm.

Many lives will depend on your ability to adapt to the situation and take appropriate action.

2. First Response

Start by contacting the authorities and waiting for a disposal team to arrive. However, the disposal team may take a while to arrive, and conditions may complicate the team's arrival.

It is important to secure and quarantine the area. After taking steps to protect yourself, secure all individuals present who have not been protected, not just the infected. You must not allow them to travel. After doing this, seal off the area completely.

You must adapt to the circumstances in order to secure and quarantine the area. The authorities in the area (such as police or teachers at the school) may be able to convince everyone. If this fails, you could consider using force or weapons, but this may also cause chaos and panic.

You should overlook the sacrifices caused by the use of force. Should you fail in quarantining the area, there is a good chance you could lose dozens of lives.

3. Responding to an Unexpected Situation

Confining the infection in the early stages is vital to dealing with the infection. Should you fail in this, the infection will multiply at a tremendous rate, and the situation could approach that of a pandemic. This could be the case if you have failed in the aforementioned confinement or if you have opened this document once the situation has already proceeded to that stage.

Even in such cases, securing and quarantining is still important. However, you must secure people and materials and quarantine anyone not infected.

You may be limited in the resources and people you can handle. Keep in mind the need to use force and be sure to secure sufficient materials.

The securing of people must be done with strict selection and a general policy of quarantine. You would be best to keep in mind the use of force when doing this as well.

4. Finally

Throughout the ages, there have been various ideas of morality, but every set of morals has shared one idea that human life should be prioritized above all else. Therefore, you must not balk at the loss of a few lives when faced with a threat to many.

In the event that this booklet has been opened, the spirit of tolerance and kindness is no longer a virtue.

Prepare yourself.

The weight of thousands or millions of lives rests on your shoulders.

Non-disclosure Clause

By opening this document, you agree to abide by non-disclosure agreement #16432. (See the main body of the agreement for information on the penalties.) In the event of an unauthorized opening or disclosure to or discovery by an unqualified third party, contact the [redacted] auditing department immediately. Readers of this document must keep the information gained from this document (regardless of whether gained from the text, orally, or through sight) strictly confidential

Should a public institution or media outlet of any sort come seeking information, do not even mention the existence of this document, let alone its contents, no matter the situation.

Introducing the new club member, Mii-kun.

Stuff like new members in a club, changing classes, or transfer students; when you're welcoming in a new person; or when you're joining a new group. These sorts of things can be rough, and you can end up butting heads over the slightest things.

It's wonderful when you can get everything settled properly when things like that happen.

But still, sometimes things just don't go right.

When that happens, it's best not to get too worked up and just look at it as the way things go. If things don't go well at school, I think it's best to just take a step back and focus on the outside world.

...Of course, this is assuming that the outside world is still all right.

Anyway, what do you think will become of the School Living Club now that Mii-kun is here? Do look forward to it next time in volume four.

Thank you.

Norimitsu Kaihou.

Look forward to the Sturm und Drang of the next volume!!
